

Sprint 1 Retrospective

What to stop doing:

- Stop working on modules individually. Everyone should be working on the same project. Program is fragmented right now.
- Push the printable PDF back to sprint 3, is a blocker right now.

What should we start doing:

- Get work done.
- Have more collaboration.
- Have project Jams. 3 hours where we all work on the project together.
- Have everyone up to speed on android.
- Everyone should be more active on Slack.

What should we keep doing:

- Keep having regular meetings
- Keep having clear priorities
- Keep having clear direction
- Clarity.

What was completed and what was not completed

Completed

- Saving (temporary)
- Survey
- Played D&D
- Start Screen Mockup
- Character List Built
- Basic Stats Sheet
- Saving for stats sheet
- Mockups for Character Sheet
- Dice Roller + Stats roller

Not Completed

- Printable PDF
- Questionnaire (Experienced)
- Polish on saving (Both)

Work Completion Rate

- Good considering we had a week, we got most of what we wanted done. ~85%
